

Why Recycle?

- M Be Green - Show your neighbors your commitment to a greener environment
- M Recycling carpet and pad has never been easier
- M It makes sense. Consider the facts:
 - 4-6% of all waste in landfills is carpet
 - Recycling carpet creates jobs in USA
 - 1,000 SY of carpet saves 4,500 Lbs from landfill, saves 440 gallons of oil
 - Recovering carpet reduces demand for foreign oil
 - Pad is recycled into new pad

Your recovered carpet and pad is reincarnated and given new life as:

- Parking stops
- Erosion control
- New carpet and pad
- Picnic tables
- Park benches
- Consumer products
- Sound barriers
- Car parts
